### OVERSEA TRADE

#### SOUTH AUSTRALIA

1961-62

#### SCOPE

This bulletin shows direct trade between overseas countries and South Australia. The 1961-62 figures are preliminary and subject to revision.

INTERSTATE TRADE AND OVERSEA TRADE VIA OTHER STATES IS EXCLUDED.

VALUE of exports is expressed £A f.o.b. or its equivalent at port of shipment; value of imports is "transaction value" £A f.o.b. or "domestic value" £A f.o.b. at port of shipment, whichever is the greater.

QUANTITIES are tabulated only in respect of exports for which there is an appropriate unit of quantity.

#### EXPORTS TO OVERSEA COUNTRIES

The United Kingdom is the principal country to which goods are exported. Exports to the United Kingdom increased from £27.1 million in 1949-50 to a peak of £55.5 million (45.1 per cent of total exports) in 1952-53. Since then the proportion of exports shipped to the United Kingdom has declined generally to 25.5 per cent of total value in 1961-62.

Exports to other countries show considerable variation from year to year, but four countries - Japan, United States of America, France, and New Zealand - have taken over 30 per cent of South Australian exports in recent years. In 1961-62 the respective proportions of total exports shipped to these countries were 14.7 per cent, 8.5 per cent, 5.0 per cent, and 4.1 per cent.

VOLUME OF  
OVERSEA  
EXPORTS

The following table shows the quantities of selected items of exports for each of the last five years.

Preliminary figures indicate that an all time record quantity of 172.3 million lb. of wool was exported in 1961-62. However, even though this was 75.5 per cent greater than the quantity exported in 1950-51, the value of wool exported was 24.4 per cent less than the record of £54.9 million attained in that year.

During 1961-62 exports of barley reached a record of 24.8 million bushels and wheat exports totalled 30.1 million bushels, the highest figure since 1932-33.

VALUE OF  
OVERSEA  
EXPORTS

Table 3 shows values of principal commodities exported and Table 4 shows values of exports according to commodity groups.

As shown in Table 4 about 90 per cent of the value of exports comes from the Agricultural, Pastoral, and Mining groups. The commodities of greatest value in each group are:- Agricultural - wheat, barley, and flour; Pastoral - wool, sheep-skins, and meat; Mining - lead, zinc, and silver.

The main variations in the value per unit of quantity of these commodities during the five years under review have been as follows:- The average value of barley was 9s. 9d. per bushel in 1957-58, increased to 11s. 6d. in 1958-59, decreased over the next two years to 8s. 7d., and increased to 9s. 6d. in 1961-62. Greasy wool has varied between 5s. 4d. and 4s. 1d. per lb., increasing from 4s. 4d. per lb. in 1960-61 to 4s. 7d. in 1961-62. The average value of lead (pig) has declined from £4.16.0. per cwt in 1957-58 to £3.13.0. in 1961-62. Zinc concentrates and ores dropped from 14s. 4d. per cwt in 1957-58 to 9s. 9d. in 1958-59, but increased to 13s. 2d. in 1959-60 and rose to 16s. 6d. in 1960-61 and 18s. 0d. in 1961-62.

OVERSEA  
IMPORTS

The United Kingdom is the main supplier of goods imported into South Australia. Since 1949-50 the value of direct imports from the United Kingdom has varied between £16.4 million and £36.4 million while the proportion has fluctuated between 31.7 per cent and 52.2 per cent of total imports, decreasing from 43.9 per cent in 1959-60 to 32.7 per cent in 1960-61 and 31.7 per cent in 1961-62.

In 1961-62 the United Kingdom supplied 31.7 per cent of total imports, United States of America 21.7 per cent, India 3.3 per cent, and Canada 6.0 per cent, and in each of the last six years these countries were the source of about two-thirds of total imports.

VALUE OF  
OVERSEA  
IMPORTS

Since 1949-50 the value of imports into South Australia has varied between £45 million and £71 million annually except for 1951-52, when it reached £93 million. The changes in totals have been influenced mainly by two groups of commodities:-

- (1) Metals and Metal Manufactures, which comprises nearly half of all imports. The most variable commodities in this group are Motor Vehicles and Iron and Steel.
- (2) Oils, Fats, and Waxes. The value of direct imports of this group, which includes Petrol, Kerosene, and Diesel Oil, fell steadily from £8.5 million in 1953-54 to £2.9 million in 1957-58; it has since risen to £3.3 million in 1961-62. The current low level of South Australia's direct overseas imports of these items is largely the result of obtaining supplies from other Australian States in which oil refineries are located. Imports of petrol, kerosene, and diesel oil, from Western Australia (the only State for which figures are available) increased from £5,000 in 1953-54 to £9.1 million in 1957-58. In 1959-60 the figure was £8.5 million and in 1960-61 it was £7.2 million.

The proportions which principal items bear to total imports have not changed greatly since before the war. Apart from the variations in Oils, Fats, and Waxes, one of the most marked fluctuations has occurred in the Vehicles group, which accounted for 7.4 per cent of total imports in 1938-39, 13.8 per cent in 1960-61, and 12.5 per cent in 1961-62.
